

AMICAS[®]

The Power of **One Solution**

Integrated RIS, PACS, and Revenue Cycle Management

You need to be smart about how you run your business. You need to be careful about the investments you make. You need to make smart business decisions about areas of growth within your business.

SO, HOW CAN YOU COMPETE?

Your business needs a partnership with a vendor that's completely committed to automation in radiology.

AMICAS provides a completely integrated software suite for image management, scheduling, revenue cycle management, and document management – what we call the **AMICAS ONE Suite™** – that's singularly focused on the needs of radiology businesses.

WHY CHOOSE AMICAS?

Something in your radiology software chain breaks. Who's going to fix it? Are these vendors helping you or are they pointing a finger at another vendor?

Here's the reality: The information system from “vendor A” was designed from the perspective of

The AMICAS ONE Suite is a comprehensive workflow solution that enhances your clinical, operational, and administrative functions.

“vendor A” and the information system from “vendor B” was designed from the perspective of “vendor B.” And these vendors have no incentive to work together – which forces you to mediate between vendors in order to get everything up and running again.

Having to sort out this mess takes you away from what you do best, which is running your business.

Ultimately, your workflow is compromised and you're faced with the difficult task of brokering resolutions between different vendors. Not only is this a distraction – it also hurts your bottom line.

“With AMICAS, we can provide an expert radiologist on-site all day and a large virtual radiologist network with subspecialty expertise.”

Craig Cunningham, chief operating officer
American Radiology Associates (Dallas, TX)

AMICAS CAN GET YOU THERE.

Our people work hard every day to help our 650 customers process nearly 15 million studies and nearly 100 million radiology transactions each year – and we've been working in radiology IT for more than 30 years.

We're also nimble enough to be able to respond to market needs with our product pipeline.

Our balance sheet is solid – unlike in other small to mid-sized organizations. So, with AMICAS, you can eliminate the risks traditionally associated with small to mid-sized companies.

AMICAS IS FOCUSED ON INNOVATION.

AMICAS is 100 percent focused on developing cutting-edge, next-generation software solutions to support the complex challenges our customers face. Here's how we do it: We work closely with radiologists, imaging executives, technologists, and other healthcare professionals on product design and features to address the inherent complexities of the imaging business.

At the heart of the AMICAS ONE Suite are our flagship RIS, PACS, and revenue cycle management solutions. Highlights include:

AMICAS RIS drives administrative staff productivity and revenue opportunities. This industry leading ambulatory RIS solution offers robust scheduling, charge capture, and workflow capabilities.

AMICAS PACS drives clinical staff productivity with a low total cost of ownership. This completely Web-based PACS offers personalized workflow via the exclusive RealTime Worklist™.

AMICAS Reach allows radiology practices to provide unparalleled service to referring physicians. This new zero install solution uses e-mail to deliver images and reports to referring physicians via a secure Web-based portal. AMICAS Reach also allows referring physicians to order new exams.

AMICAS Financials offers modern, Windows-based technology to automate the identification and management of denials and follow-up workflows.

The **AMICAS ONE Suite**

ORDER

Easy, online requests for new or follow-up exams

SCHEDULE

The industry's most robust radiology scheduling and charge capture solution

FOLLOW-UP

Critical results tracking and follow-up exam ordering

PRIORITIZE

Acuity-based prioritization enhancing productivity

COLLECT

Increased collections and reduced costs with a feature-rich revenue cycle management platform

READ

Web-based PACS for reading anywhere, anytime

CONVEY

Excellent service with high tech and high-touch results communication

DON'T SETTLE FOR LESS.

We want to empower you to be the most successful radiology business in your market – so we look beyond the functionality traditionally associated with RIS, PACS, and revenue cycle management systems. Instead, we focus on helping you run your business at maximum efficiency. The AMICAS ONE Suite offers a “one-stop-shop” from a major independent player with a track record of customer success and innovation.

AMICAS invests approximately 20 percent of our operating budget in research and development to ensure a healthy pipeline of future innovation. Our continued investment ensures that you'll reap the benefits of continued innovation, tighter integration, and superior value.

AMICAS IS FOCUSED ON CUSTOMER SUCCESS.

At AMICAS, we know that the only way we'll be successful is if our customers are successful.

Throughout the years, we've received consistently high ratings from nearly every independent monitoring organization in the industry, including KLAS, Frost & Sullivan, ECRI, and MD Buyline. Our consistently high ratings are a direct result of our robust solutions – and our commitment to customer success.

“With AMICAS, we have grown our exam volume by 20 percent while decreasing our operating expenses by 10 percent.”

Randy Hicks MD, MBA, radiologist and owner
Regional Medical Imaging (Flint, MI)

Our focus is on improving your radiology workflow, so you don't have to. And this allows you to focus on doing what you do best: Run your business and realize a superior ROI.

ASK YOURSELF

How does the growth of your business compare to the growth in imaging overall in your market?

Are you beating the market? Or are you losing market share?

How are you measuring referring physician engagement and satisfaction?

How are you differentiating your services from your competitors'?

LET AMICAS HELP

Together with our customers, AMICAS is revolutionizing radiology IT. Join us.
